

Neurobiology Seminars

Wednesdays, 12:15-13:00, PER09, 1.100

Date	Speaker	Host	General topic
Wednesday 27.9	Dr. Erica Erhard, University Köln Germany	Anne von Philipsborn	Mapping neurons in the Drosophila nervous system
Wednesday 11.10	Dr. Jeremy Marozeau, Technical University of Denmark	Mario Prsa	How to restore music perception in Cochlear Implant users
Wednesday 25.10	Dr. Lina Verbakel, University Fribourg	Anne von Philipsborn	Encoding of reproductive state by the female nervous system
Wednesday 8.11	Dr. Vassiliki Nikoletopoulou University of Lausanne	Patricia Boya	Autophagy: a pivotal player in brain homeostasis and function
Wednesday 22.11	Dr. Georg Keller, Friedrich Miescher Institute	Michael Schmid	Functional effects of antipsychotic drugs in mouse cortex

Everybody interested in neuroscience research is welcome!

If you would like to meet with the speakers, please contact the organizers: Anne von Philipsborn, anne.vonphilipsborn@unifr.ch or Mario Prsa mario.prsa@unifr.ch
